Type of appointment:	Individual Contract (International Consultancy)
Deadline:	14 March 2019

I. PROJECT BACKGROUND

Tajikistan, with 93% of its territory covered with mountains, is disaster prone country. Mudflows, landslides and floods are most frequent, followed by avalanches and small-scale earthquakes. Disasters in Tajikistan are most often local, frequently affecting the more inaccessible piedmont and mountain areas of the country. On top of that, Tajikistan has a challenging mountainous geography with severe climate conditions and isolated topography with old infrastructure. In such environment, vulnerability of societies to natural disasters increases.

Damage from localized mudflows, floods, severe winter weather, hail, strong winds, avalanches, or small earthquakes diverts a household's limited disposable assets and remittances from financing food needs, education, health care or investment into increasing one's income (a fundamental element of the development process), to rebuilding after the disaster. This situation creates the classic poverty-shock trap where shocks (disasters) cause the families' assets to fall below a level at which they are unable to provide for their basic needs or build assets to move ahead. These climate-related hazards are closely associated with short-term weather patterns, specifically periods of stormy weather, heavy precipitation (i.e., rain or snow) and changes in temperature and wind conditions (for avalanches).

Currently, the Tajik Agency for Hydrometeorology (Hydromet) monitors weather conditions on a daily basis and issues daily forecasts of severe weather, including heavy precipitation or severe storms and the potential for flooding and rapidly melting snow pack (important sources of mudflows). In 2019, the Agency for Hydrometeorology will begin using the updated forecasting software which is expected to improve the quality and precision of forecasts.

However, there is a significant constraint remains. Currently Hydromet has 52 weather stations, most of which have not been fully operational. Characteristic mountainous terrain in Tajikistan, diverse topography and climate patterns at district level requires wide and tight network to report detailed weather information, such as on time temperature, air pressure, precipitation, particularly in order to cope with severe and abrupt weather transition.

In September 2016, Disaster Risk Management Programme (DRMP) of United Nations Development Programme (UNDP) has launched the new project support to the Government of Tajikistan in undertaking a nation-wide risk assessment, establishment and implementation of risk reduction measures, improvement of early warning and disaster management planning, preparedness and response, as well as strengthening capacities of search and rescue teams. Within the framework of the project, rain gauges and other equipment for 20 weather stations are ongoing for Hydromet to enhance the accuracy of weather forecasting. Moreover, Hydromet estimates further capacity building needs to strengthen the human resource.

Currently, Hydromet has been using GISMETEO and “The Consortium for Small-scale Modeling” (COSMO) for weather data analysis tool and weather forecast modeling. However, they also require upgrading these software and tools, and also to diversify the analytical options to compare the effectiveness and accuracy with current information channels and approaches.

Therefore, in order to improve the knowledge and analysis capacity of Hydromet to understand the diversified weather phenomena, UNDP DRMP needs a highly qualified expert to develop a comprehensive capacity building strategy/plan and to strengthen the meteorological and institutional capacities of Hydromet staff. Currently, Hydromet analyzed its own capacities and expressed interest in subjects below;

- Weather map analysis to deeply understand weather related phenomena which threat economic activities in Tajikistan especially agricultural industries;

The period of notice shall be five (5) days in the case of Contracts for a total period of less than two (2) months and fourteen (14) days in the case of contracts for a longer period. The initiation of conciliation or arbitral proceedings, as provided below, shall not be deemed to be a “cause” for or otherwise to be in itself a termination of the Contract. UNDP may, without prejudice to any other right or remedy available to it, terminate the Contract forthwith in the event that: (a) the Individual contractor is adjudged bankrupt, or is liquidated, or becomes insolvent, applies for moratorium or stay on any payment or repayment obligations, or applies to be declared insolvent; (b) the Individual contractor is granted a moratorium or a stay or is declared insolvent; the Individual contractor makes an assignment for the benefit of one or more of its creditors; (c) a Receiver is appointed on account of the insolvency of the Individual contractor ; (d) the Individual contractor offers a settlement in lieu of bankruptcy or receivership; or (e) UNDP reasonably determines that the Individual contractor has become subject to a materially adverse change in its financial condition that threatens to endanger or otherwise substantially affect the ability of the Individual contractor to perform any of its obligations under the Contract.

In the event of any termination of the Contract, upon receipt of notice of termination by UNDP, the Individual contractor shall, except as may be directed by UNDP in the notice of termination or otherwise in writing: (a) take immediate steps to bring the performance of any obligations under the Contract to a close in a prompt and orderly manner, and in doing so, reduce expenses to a minimum; (b) refrain from

undertaking any further or additional commitments under the Contract as of and following the date of receipt of such notice; (c) deliver all completed or partially completed plans, drawings, information and other property that, if the Contract had been completed, would be required to be furnished to UNDP thereunder; (d) complete performance of the work not terminated; and (e) take any other action that may be necessary, or that UNDP may direct in writing, for the protection and preservation of any property, whether tangible or intangible, related to the Contract that is in the possession of the Individual contractor and in which UNDP has or may be reasonably expected to acquire an interest.

In the event of any termination of the Contract, UNDP shall only be liable to pay the Individual contractor compensation on a pro rata basis for no more than the actual amount of work performed to the satisfaction of UNDP in accordance with the requirements of the Contract. Additional costs incurred by UNDP resulting from the termination of the Contract by the Individual contractor may be withheld from any amount otherwise due to the Individual contractor from UNDP.

14. NON-EXCLUSIVITY: UNDP shall have no obligation respecting, and no limitations on, its right to obtain goods of the same kind, quality and quantity, or to obtain any services of the kind described in the Contract, from any other source at any time.

15. TAXATION: Article II, section 7, of the Convention on the Privileges and Immunities of the United Nations provides, *inter alia*, that the United Nations, including its subsidiary organs, is exempt from all direct taxes, except charges for public utility services, and is exempt from customs restrictions, duties and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize the exemptions of the United Nations from such taxes, restrictions, duties or charges, the Individual contractor shall immediately consult with UNDP to determine a mutually acceptable procedure. UNDP shall have no liability for taxes, duties or other similar charges payable by the Individual contractor in respect of any amounts paid to the Individual contractor under this Contract, and the Individual contractor acknowledges that UNDP will not issue any statements of earnings to the Individual contractor in respect of any such payments.

16. AUDITS AND INVESTIGATIONS:

Each invoice paid by UNDP shall be subject to a post-payment audit by auditors, whether internal or external, of UNDP or by other authorized and qualified agents of UNDP at any time during the term of the Contract and for a period of two (2) years following the expiration or prior termination of the Contract. UNDP shall be entitled to a refund from the Individual contractor for any amounts shown by such audits to have been paid by UNDP other than in accordance with the terms and conditions of the Contract.

The Individual contractor acknowledges and agrees that, from time to time, UNDP may conduct investigations relating to any aspect of the Contract or the award thereof, the obligations performed under the Contract, and the operations of the Individual contractor generally relating to performance of the Contract. The right of UNDP to conduct an investigation and the Individual contractor's obligation to comply with such an investigation shall not lapse upon expiration or prior termination of the Contract. The Individual contractor shall provide its full and timely cooperation with any such inspections, post-payment audits or investigations. Such cooperation shall include, but shall not be limited to, the Individual contractor's obligation to make available its personnel and any relevant documentation for such purposes at reasonable times and on reasonable conditions and to grant to UNDP access to the Individual contractor's premises at reasonable times and on reasonable conditions in connection with such access to the Individual contractor's personnel and relevant documentation. The Individual contractor shall require

its agents, including, but not limited to, the Individual contractor's attorneys, accountants or other advisers, to reasonably cooperate with any inspections, post-payment audits or investigations carried out by UNDP hereunder.

17. SETTLEMENT OF DISPUTES:

AMICABLE SETTLEMENT: UNDP and the Individual contractor shall use their best efforts to amicably settle any dispute, controversy or claim arising out of the Contract or the breach, termination or invalidity thereof. Where the parties wish to seek such an amicable settlement through conciliation, the conciliation shall take place in accordance with the Conciliation Rules then obtaining of the United Nations Commission on International Trade Law ("UNCITRAL"), or according to such other procedure as may be agreed between the parties in writing.

ARBITRATION: Any dispute, controversy or claim between the parties arising out of the Contract, or the breach, termination, or invalidity thereof, unless settled amicably, as provided above, shall be referred by either of the parties to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining. The decisions of the arbitral tribunal shall be based on general principles of international commercial law. For all evidentiary questions, the arbitral tribunal shall be guided by the Supplementary Rules Governing the Presentation and Reception of Evidence in International Commercial Arbitration of the International Bar Association, 28 May 1983 edition. The arbitral tribunal shall be empowered to order the return or destruction of goods or any property, whether tangible or intangible, or of any confidential information provided under the Contract, order the termination of the Contract, or order that any other protective measures be taken with respect to the goods, services or any other property, whether tangible or intangible, or of any confidential information provided under the Contract, as appropriate, all in accordance with the authority of the arbitral tribunal pursuant to Article 26 ("Interim Measures of Protection") and Article 32 ("Form and Effect of the Award") of the UNCITRAL Arbitration Rules. The arbitral tribunal shall have no authority to award punitive damages. In addition, unless otherwise expressly provided in the Contract, the arbitral tribunal shall have no authority to award interest in excess of the London Inter-Bank Offered Rate ("LIBOR") then prevailing, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy or claim.

18. PRIVILEGES AND IMMUNITIES: Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs.
